PROJECT

1

A **mapping research** of similar activities, outlining good practices and lessons learned, as the baseline upon which building the MEETS method.

An **online validation tool** to help students recognize the transversal skills developed during music-based activities and keep track of their progress.

The MEETS **training platform**, providing universities and colleges with a new, attractive methodology for the enhancement of key competences through the use of music.

3

2

MEETS is an innovative project that aims to advance the **transversal skills** of university students through **music**.

Performed in university or college orchestras and choirs, **music represents a universal language and a unique opportunity to improve the key competences** of students from different fields of study and make them flourish in their professional and personal life.

GOALS
